• Municipal Inventory:		-----
• Register of the National Estate:	Permanent	30/05/1995
• Aboriginal Sites Register		-----
8. **ORDERS UNDER SECTION OF THE ACT**

9. **HERITAGE AGREEMENT**

10. STATEMENT OF SIGNIFICANCE

Cape Peron K Battery Complex, comprising Gun Emplacements North and South and their associated and adjacent Ready Ammunition and Storage Bunkers, a Battery Observation Post, an Operations Centre, archaeological deposits in and around the structures, and other structures associated with the Battery, has cultural heritage significance for the following reasons:

the place was a component of Australia's coastal defence system erected in response to external threats during World War II and demonstrates the military importance of Cockburn Sound;

the place has been associated with the defence of Australia since its acquisition by the Commonwealth in 1916;

the place demonstrates technical achievement through its use of 'Panama Mounts'¹, a versatile design that had the potential to achieve a 360° traverse to increase the capacity of its 155mm guns; and,

the place has potential for interpreting the extensive coastal defence system of Western Australia during World War II.

¹ 'Panama Mounts' refer to the type of mount used by the US on the Panama Canal in the 1920s.
