The required inspection of these items should form part of a broader more comprehensive schedule prepared by the proprietor or building manager.

This schedule should be regarded as provisional and should be adapted by mutual agreement to suit circumstance and experience. This schedule should be regarded as a minimum standard. The schedule should be adhered to in any period where the place is wholly or partially unoccupied.

Should the place be subject to damage by fire, infestation, seismic or building activity or alteration of the foundation, an inspection of the building frame by a qualified structural engineer will be required and any recommendations implemented.
