10. **STATEMENT OF SIGNIFICANCE**
Rotunda, a decorative, open sided pavilion on a half ellipse plan, constructed from timber posts and beams supporting a zinc clad roof, has cultural heritage significance for the following reasons:
 - the place has a high aesthetic value in its unusual half ellipse plan and the quality of the timber workmanship;
 - the place has historic value due to its association with the setting aside of Queen's Park, Albany, as a public reserve in commemoration of Queen Victoria's Diamond Jubilee;

the place is highly valued by the local community as an example of a civic amenity, partially funded by public subscription; and,
as a former focal point for local entertainment, the place has landmark qualities due to its location on the edge of Stirling Terrace commanding a sweeping view of the railway station and harbour facilities.
