10. **STATEMENT OF SIGNIFICANCE**
Beverley Post Office & quarters, a two-storey brick and iron building, has cultural heritage significance for the following reasons:

it is a fine example of the Federation Free style of architecture from one of the recognised exponents of the style; Hillson Beasley, the PWD Chief Architect;

the place has strong visual impact in the Vincent St vista, making a significant contribution to the townscape and character of the Beverley town, and is a landmark within the main street;

it is associated with the development of postal and telecommunication services in the Beverley town and region; and, it demonstrates a sense of place for the people of Beverley.

The communications extension carried out in 1957, the subject of a lease agreement with Telstra, is an intrusive element. Garages, sheds and an external laundry and toilet located at the rear of *Beverley Post Office & quarters* are of little significance.
