10. **STATEMENT OF SIGNIFICANCE**
Pingelly Post Office, comprising two distinct but conjoined single-storey brick and iron buildings, the earlier a George Temple Poole design, the later a Federation Free Style building, has cultural heritage significance for the following reasons:

the place provides physical evidence of the growth and prosperity of the Pingelly township and surrounding agricultural areas during the period prior to World War One, as well as the austerities required immediately following;

the place is an example of two post office buildings conjoined, the older building providing the residential component of the place;

the place is a focal point for the Pingelly district where social interaction and communication take place; and,

the place contributes to the town, and surrounding agricultural community's sense of place.
